

**Chemical Engineering 475  
Honor Code Statement**

I, the undersigned, have abided by the following honor code while completing my project:

1. Only my team performed the experiments and analyzed the data.
2. I have not looked at or utilized previously completed project reports (specific for this project) to help on any aspect of my project.
3. I have not interacted with any students in either UO Lab section on any aspects of my project, unless the students were on my team.
4. For individual reports, I have made my own graphs and figures and have not incorporated components of other team member's reports.
5. I have not plagiarized any work.
