Regulations:
1. Any questions will be directed to facility staff in person, by email, or by phone at (801) 581-4188 during business hours.
2. This is a federally regulated facility; falsifying information may be considered a federal offense.
3. NO WEAPONS of any kind are allowed within the facility, including guns, knives, etc. under federal regulation 10 CFR 73.75 / 10 CFR 73.81, violation is considered a federal offense.
4. Long pants and closed toed shoes are required to enter the facility.
5. No electronic devices capable of recording audio or video are allowed within the facility.
6. No bags, backpacks are allowed within the facility. These items may be stored within the secured facility conference room to prevent theft.
7. All persons and possessions are subject to search.
8. Minors must be accompanied by an adult.

Explanation of Risk:
Staff will notify visitors of any hazards during the job briefing before entry. Before visitors are allowed in the facility, hazards will be secured but may still exist. Hazards may include:
- Radiological sources may be present within the work environment and marked.
- Chemicals may be present within the work environment.
- Electrical hazards or heavy/dangerous equipment may be present within the work environment.

Do not touch any work surface or equipment in the lab without permission. Allow for safe and adequate movement around these hazards.

Instructions for Entry:
1. Ensure you understand all instructions and risks, before entering the UUTR Facility.
2. After knocking loudly on the door, facility staff will greet you and allow entry into 1206.
3. Facility staff will check IDs and enter in log book.
4. Immediately after entering 1205, no matter the length of absence, you are required to “scan in” on the hand and foot radiation monitor directly inside and to the right of the door.
5. After stepping onto the monitor, the device will provide scanning instructions.
6. Depending on the results of your scan, staff may ask you to scan again or follow instruction.
7. After scanning is complete you may proceed into the facility.
Instructions for Exit:

1. Before exiting the facility, no matter the length of stay, you are required to “scan out” on the hand and foot radiation monitor directly inside and to the left of the door.

8. Depending on the results of your scan, staff may ask you to scan again or follow instruction.

2. After scanning is complete you may proceed out of the facility.

Dosimetry:

- Radiation dose and exposure are closely monitored within the UUTR Facility.
- Depending on the length and nature of your work within the UUTR Facility, you may be issued a dosimetry badge, which will record your absorbed radiation dose.
- These badges record your absorbed radiation dose either electronically, or with the use of semiconductor crystals.

I acknowledge I have read the above requirements and having had ample opportunity to ask pertinent questions, I agree to comply with the statements in these documents and other regulations associated with the licensing and operation of the University of Utah TRIGA Reactor Facility.

I hereby declare that I understand not every potential danger or cause of injury is, or could be, covered in a short briefing such as this. I understand it is my responsibility to conduct myself with caution and to anticipate possible hazards. I will avoid all hazardous conditions and unknown material and ask any question that may pose a concern. I also agree to follow the instructions of my assigned escort while inside the facility.
