A place near a salt-mine. King Louis IV? stole all the salt for the sake to the nobility of France. In their town a "Robin-Hood" captured the salt personally and gave it to the peasants. He hid-out in the forests atop the Mtn. Their salt was a big factor in the beginning of the French Revolution. Notice the longings baskets & flowers on bldg. on the right. These flowers are on most every house & bldg. around here. Congrats.

A pottery where their old man has a pottery wheel and makes the gorgeous vases & other pottery sold around here. I had to bowl her photo because he looks just like the guy in "The Nutcracker" in S.B.C.

# SEASON'S GREETINGS

MERRY CHRISTMAS 1993

Hello from the Tom Fletcher family!!! We hope this holiday season finds all our family and friends well and happy. We think about you all so much during the year and really should be better about getting those thoughts down on paper and mailed to you.

We have had another busy year as we're sure all of you have too. We survived the great winter of 1992-93. We haven't seen that much snow for a very long time and hopefully this coming winter won't be quite as bad. Our best surprise of the year came on May 25 when our little Marianne Elizabeth joined our family. We were very surprised and happy to have another little girl in our home and she has been such a fun baby. We're entertained as we sit and watch all the fun things she does. She gets lots of love and attention from her big brothers and sister too.

In July we took a quick trip back to Tracy, California. It was great to see our California friends again and play tourists as we visited San Francisco and Sacramento. We are looking forward to a trip to Virginia in June 1994 to celebrate Beth's parents 40th anniversary. We're excited to see family and friends on the East Coast again.

Tom is busy in his work as a Chemical Engineer Professor at BYU. He likes teaching and working with the students. The research part of his job keeps him going--he could work 18 hour days and still not be caught up with all the work. Tom enjoys going to BYU football and basketball games and is glad that Daniel is old enough to enjoy going with him. Tom is still the cubmaster in our ward and that seems to be the perfect calling for him. The boys in our pack have a great time playing around with him. Beth has spent most of this year getting used to having a baby around the house again. She is enjoying Marianne so much that not much else is getting done. We know just how fast those babies grow and are off doing their own thing, so we'll just enjoy the time we have.

Daniel is almost 11 years old. He is a Webelos scout and has worked hard to earn his awards in that. He also played baseball and flag football this year and will be on a basketball team starting in January. He is in 5th grade and is a great student. He also loves to draw pictures of cars, trucks, army things, monsters, etc. Jennifer sings in the school chorus group, goes to gymnastics and just started attending girl scouts. She loves to play with her friends, write stories on the computer, and make things with her hands. She is in 4th grade this year and also doing great. Jeffrey is in 2nd grade and will be eight years old in May. He is our adventure kid and loves to discover new things. He played on a T-ball team in the summer and had fun with that. He is excited about reading and learning new things at school. All three kids took swimming lessons this last summer. We had a teacher come to our house to teach the kids (that was especially nice with a newborn--we didn't have to do a lot of running around). Daniel, Jenny and Jeffrey are all great help with Marianne--Mom really appreciates that.

We hope that your family has a wonderful Christmas, and we hope that we are able to see many of you in 1994!!!

Christmas  
'93

Dear Daniel,

Thank you so much for writing me.  
I love to get mail from my friends. I  
will try to bring you the remote  
control car that you asked for. Thanks  
for trying to be so good. That makes  
me very happy! Have a Merry Christmas!

Love,  
Santa
